

2nd Chemical Hazard Symposium

December 8th, 2018, 9:10~18:15
6F Meeting Room, CMES, Ehime University

9:10~9:15 Opening remark

9:15~9:55 Prof. Atsushi Yamamoto (Tottori University Of Environmental Studies)
「Non-target analysis for environmental samples using high-resolution mass spectrometry and its data interpretation」

9:55~10:35 Prof. Shin Takahashi (Ehime University)
「Integrated exposure and effect analysis for dioxins and related compounds: how to watch the mixtures/hidden hazards?」

10:35~11:15 Dr. Yuichi Miyake (University of Shizuoka)
「Determination and Identification of Novel Brominated and Phosphorus Flame Retardants in Flame-retarded Curtains」

11:15~11:55 Dr. Ana Sousa (Hokkaido University)
「Levels of endocrine disruptors in Portugal: results from the joint collaboration between Portugal and Japan」

In the afternoon, it will be a research presentation by students / young researchers of participating universities.

Language: English, no advanced application, no fee for attending

Photo by Kei Nomiyama

Participating University: Hokkaido University, Ehime University, Kyoto University, Chiba University, University of Shizuoka, Obihiro University of Agriculture and Veterinary Medicine

共催：愛媛大学化学汚染・沿岸環境研究拠点 (LaMer)

(一社)日本環境化学会中国・四国地区部会

北海道大学 One Healthフロンティア卓越大学院プログラム
